Subject: List of Hunters Pt upcoming dates/times for mtgs/milestones

So many different parallel activities are barreling forward at fast pace, so John had asked me to send him periodically an updated list of upcoming mtgs. Now things are even more hectic than usual, so here's a more elaborate schedule.

On the Parcel G workplan, Lawrence Lansdale wanted to fly up 7/17 to talk with regulators before we submit written comments. He picked this date because it would give us 30 days to review and bc it coincides with the routine monthly transfers mtg they would travel for anyway. Parcel A scanning is scheduled to begin 7/16, and some of us are likely in the field then. Depending how things are going w/Parcel A, next week is very busy w/ 7/11 Congressional briefing and Navy public workshop, 7/12 Greenaction RA mtg, etc. It's possible we may want to consider postponing the Parcel G mtgs if we can't be ready by 7/17. The 60 day deadline to the public for comments in 8/14. I had promised to try to get our comments ready by 7/17, but I didn't commit we would be able to pull it off.

On the big comment, the absence in the Navy draft of the trigger for 100% excavation, that is relatively simple to discuss our position. John has already given Thomas verbally his concerns. Now that Enrique has weighed in, John/Angeles can certainly call Lawrence any time to reinforce. No need to wait for 7/17.

Meanwhile, on the details, I will have a better idea where the technical team stands on the details 7/10. Our technical team has been doing its reviews, but they have also been working on Parcel A workplan. But they are trying to get me draft comments on Parcel G workplan by 7/9. Then I will need to review these draft comments and discuss w/CDPH & DTSC. I don't know how much time they have had to review. Navy has a technical team mtg 7/10 where we can discuss at staff level.
